

EVERYONE HAS A LITTLE COWBOY IN THEM

RIISING TO GREATNESS. ADVANCING WITH PRIDE.

~ America's rifle for more than 140 years.~

It's a classic American story, one founded on enduring tradition and constant innovation. It began in 1870, when an eager young gunsmith named John M. Marlin put out his sign in New Haven, Connecticut. Armed with nothing but ambition and know-how, he built a company from the ground up by producing firearms that were unmatched in craftsmanship and attention to detail. Through wars and recessions, diversification and growth, the values he instilled have remained the cornerstone of our company. Today, more than 140 years later, Marlin® has earned its rightful place in America's proud hunting and shooting tradition.

Marlin's historic rimfire and lever action rifles – rifles like the **Model 39A**, the **Model 336**, the **Model 1894** and the **Model 60** – stand side-by-side with today's hard hitting game-changers like the **308 Marlin Express**. The story of Marlin is still being written by the generations of sportsmen and firearm enthusiasts who call us their brand.

Here's to the past, the future and to the legacy we're creating together. marlinfirearms.com

George Kollitides
Chief Executive Officer

1836

John M. Marlin born near Hartford County, Connecticut.

1870

Marlin Firearms opens shop in New Haven, CT, producing small pistols.

1889

Introduction of the first side-ejecting, solid-top receiver, improving firearm safety and comfort.

1891

Development of Model 1891, still in production today as the Model 39A.

1894-1895

Introduction of the Model 1894 and Model 1895.

1901

John M. Marlin dies, leaving company to his two sons.

1915-1918

Marlin becomes one of the largest machine gun producers for the Allies during WWI.

Marlin Firearms Collectors Association, Ltd.

PO Box 491

Clay Center KS 67432-0491

www.marlin-collectors.com

\$35.00 Annual Membership

1924

Marlin purchased at auction for \$100 by Frank Kenna. Kenna family runs Marlin for the next 83 years.

1941-1945

Marlin produces sub-machine guns for Allied effort during WWII, including the Model UDM '42.

1948

Introduction of Model 336 with the new round bolt.

1953

Introduction of accuracy-improving Micro-Groove® rifling system.

2000

Purchase of H&R 1871, the largest manufacturer of single-shot shotguns and rifles in the world.

2004

Introduction of T-900 Fire Control System for bolt-action, rimfire rifles.

2008

Introduction of Model X7™.

2011

Introduction of XT™ Series of rimfire rifles.

LEVER-ACTION TRADITION

THE FINEST MATERIALS.

We start with premium grade steel carefully chosen for its superior rigidity and hardness. Our stocks are crafted of high-grade American walnut.

A TRULY SUPERIOR DESIGN

Ours is the strongest lever-gun receiver ever conceived. Its substantial sidewalls are cut out only where necessary for loading and ejection. For rock-solid reliability, heat-treated solid-steel forgings are used for the receiver and trigger guard.

OUR LEVER-ACTION LEGACY.

IT'S THE CLASSIC AMERICAN LONG GUN, a tool of history and just as much a symbol of the Old West as the six-shooter. The Marlin® brand is synonymous with lever action repeaters. It's a rich tradition, with a heritage stretching back to the Model 1881, our first centerfire, and the Model 1891, our first rimfire. In fact, Annie Oakley trusted the Model 1891 above all others to demonstrate her legendary marksmanship. Today, hunters and sportsmen alike are still demonstrating their marksmanship with Marlin rifles, including the Model 39A, still in production today

as the oldest continuously produced rifle in the world. Marlin is the first name in lever action, producing classics like our 1894 carbines, 1895 rifles and our top-of-the-line 336 series. Each is made from premium grade steel to create the strongest lever-gun receiver ever built. The action of the lever is ultra-smooth for rapid follow-up shots. And for rock-solid reliability, heat-treated solid-steel forgings are used for the receiver and trigger guard plate. Marlin is always working to improve these timeless rifles with new technology.

THE ACCURACY ADVANTAGE.

Accuracy starts in the materials and the craftsmanship. Marlin uses the finest materials to create the strongest receivers. And our skilled gunsmiths adhere to the tightest manufacturing tolerances to ensure outstanding results. The first time you print a group with one of our lever guns is an eye-opening experience. You're shooting precision machinery, and it shows.

See page 25 for complete model listing & specifications.

MODEL 336C

MODEL 1895

MODEL 39A

Your Safety Lever.

AT MARLIN, SAFETY IS OUR TOP PRIORITY. Every Marlin lever action has these key features built in:

1 Traditional half-cock hammer position: The hammer can be locked in the half-cock position as a convenient safety.

3 Two-piece firing pin: Ensures the primer cannot be struck unless the rifle is in the fully locked position. The rear section of the pin drops out of alignment with the front until the locking bolt is fully engaged.

2 Trigger block: This device prevents the trigger from being pulled unless the lever is fully locked up.

4 Hammer-block crossbolt safety: A positive, highly visible safety mechanism that prevents the hammer from striking the firing pin – even when the trigger is pulled.

LEVER ACTION : 336 CENTERFIRE RIFLES

IDEAL FOR:

America's most famous family **OF DEER SLAYERS**

WOODS AND THE MODEL 336 GO TOGETHER LIKE MEAT AND FIRE.

Meet our most famous family of deer slayers. The Model 336 lineup is the best of our heritage — speed, dependability, smooth operation and superior accuracy. Each rifle is chambered in 30-30 Win. or 35 Remington with Micro-Groove® rifling and has all of our latest technologies. The 336 line has been a symbol for more than a century as the #1 name in lever actions. The tags and freezers filled, the sunrises, the campfires shared, the first deer — the great American tradition as we know it.

MODEL 336C & MODEL 336SS

The 336C is the flagship of our Model 336 family, and one of the most popular hunting rifles in North America. Offered in 30-30 Win. and the hard-hitting 35 Remington, it embodies our dedication to dependability, pinpoint accuracy and good looks. A 20" barrel with Micro-Groove® rifling makes it exceptionally handy in the brush, and deadly accurate. The American black walnut stock and fore-end are enhanced with fine-cut checkering and our tough Mar-Shield® finish. Its solid-top receiver is drilled and tapped for scope mounts. It also features a richly blued finish and adjustable sights. The Model 336SS, offered in 30-30 Win., features the same specifications, but is constructed primarily of stainless steel for awesome corrosion resistance and long-term durability. Six-shot tubular magazine.

1 REAR SIGHTS:

Our adjustable semi-buckhorn folding rear sights.

2 SUPERIOR RECEIVER:

Our clean, flat, solid-top receiver keeps out debris and foul weather, and is drilled and tapped for a scope mount. Its true side ejection equally accommodates both right- and left-handed shooters.

MODEL 336XLR

This is the ultimate long-range evolution of our traditional lever action Model 336. Used in conjunction with today's spire-point flexible-tip ammunition and a 24" barrel, this rifle turns the 30-30 Win. cartridge into a 250+ yard deer dropper. For weather resistance, all major components are crafted of stainless steel, and the woodwork is two-tone laminate. It has a full pistol grip, swivel studs and cut checkering. Along with fully adjustable sights, it's drilled and tapped for scope mounts. Five-shot tubular magazine.

MODEL 336W

This hunting machine is chambered for 30-30 Win. and features a 20" Micro-Groove® barrel with adjustable rear sight and ramp with hood front sight. Plus, its receiver is drilled and tapped for scope mounts. The walnut-finished laminate stock and fore-end have cut checkering and comes with a padded nylon sling. This carbine is also available with a factory-mounted and boresighted 3-9x32mm scope shown above (Order #70521). Six-shot tubular magazine.

MODEL 336BL

America's favorite lever action keeps advancing. This time with a Big Loop Lever for faster, more efficient chambering and ejection with gloves on, plus striking laminated woodwork that improves weather resistance and adds aesthetic appeal. Its 18 1/2" barrel is handy in the brush, and the full-length magazine tube gives you six rounds of 30-30 Win. assurance at the moment of truth. Six-shot tubular magazine.

MODEL 336Y

The 336Y was designed for a young hunter to take their very first deer. With a 16 1/4" barrel and shorter stock, this gun is specially designed with younger shooters in mind. They'll be proud to join generations of Marlin owners who have carried on the deer hunting tradition, by carrying a classic Marlin lever action. Five-shot tubular magazine.

LEVER ACTION : BIG-BORE CENTERFIRE RIFLES

IDEAL FOR:

MODEL 1895

The tried-and-true configuration of our famous 45-70 Gov't rifle. It features a 22" barrel with deep-cut Ballard-type rifling, an American black walnut pistol-grip stock and fore-end with cut checkering and swivel studs. Four-shot tubular magazine.

MODEL 1895SBL

Acquire and fire with a quick-pointing 18½" barrel, and cycle rapidly through six rounds of 45-70 Gov't. with the Big Loop Lever. It's as rugged as the tradition that it's made from, with the modern advancements of stainless steel metal components and a weather-resistant black/grey laminated stock.

XS Ghost Ring Sights:

A sighting system optimized for rapid target acquisition, XS Ghost Ring Sights are the ultimate for close quarters and heavy-cover situations. Simply point and shoot with pinpoint accuracy. (Offered on 1895SBL only).

MODEL 1895GBL

Easy to lever with gloves when hunting in cold weather country, our Big Loop Lever innovation makes the lever action 45-70 Gov't. even better. It features a two-tone brown laminate stock for enhanced weather resistance and distinctive looks.

MODEL 1895G & MODEL 1895GS

Lightweight and hard-hitting, these two lever action carbines are the rifle of choice for many professional hunting guides. The Model 1895G has richly blued steel. The Model 1895GS has all major metal parts machined from stainless steel for corrosion resistance.

LEVER ACTION : 1894 CENTERFIRE & COWBOY RIFLES

IDEAL FOR:

MODEL 1894 COWBOY

Tapered octagon barrel. Ballard-style rifling. It looks the part for the open range, but beneath the richly blued finish, classic black walnut stock and forend, beats the receiver of a precision-tuned modern firearm. The Model 1894 Cowboy has a 20" tapered octagon barrel and is chambered for 45 Long Colt. Ten-shot tubular magazine.

MODEL 1894 & 1894C

The Model 1894 is an elegant carbine chambered for pistol calibers. Its handy size is punctuated by a quick-pointing, straight-grip stock design and Old West-styled, adjustable semi-buckhorn sights. Choose the superior knockdown performance of the 44 Remington Mag./44 Special chambering. Also available is the Model 1894C. Chambered for 357 Mag./38 Special, the Model 1894C is the natural sidekick to your revolver of the same caliber. Both feature finely checkered American black walnut stocks and fore-ends. Ten-shot tubular magazine (1894) and nine-shot tubular magazine (1894C).

INNOVATION

— Since 1889 —

MARLIN DEVELOPED THE FIRST FLAT-TOP, SIDE-EJECT RECEIVER
and has been leading the way ever since. We took the original look and feel, then combined it with our best rifle technology to create a gun that looks like history and shoots like the future.

LEVER ACTION : 308 MARLIN EXPRESS

IDEAL FOR:

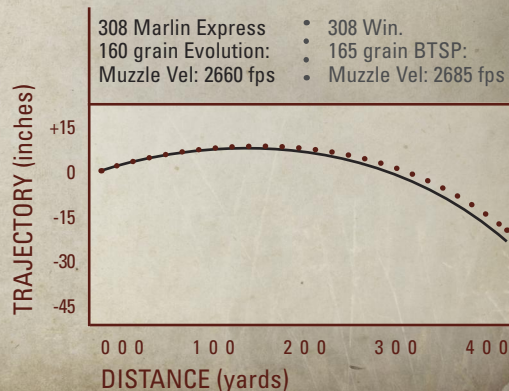

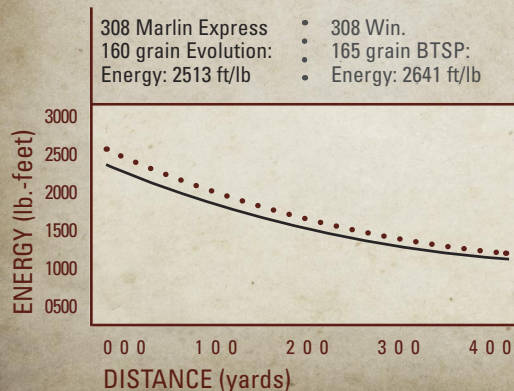

(Scope rings and base not included)

Accuracy, Flat trajectory, and just
PLAIN OLD KINETIC ENERGY.

KINETIC ENERGY IS THE FANCY WAY OF SAYING "HITS LIKE A RUNAWAY FREIGHT TRAIN." That's what the 308 Marlin Express does. These deluxe Marlin rifles get the job done time and time again on big game like elk, moose and bear. Rounds fly flat, fast and accurate, then hit with a devastating punch. They're the only 300-yard chamberings for tubular-magazine lever actions. And only Marlin makes them.

THE 308 MARLIN EXPRESS VS. THE 308 WIN.

MODEL 308MXLR

With an awesome 24" barrel of bullet-stabilizing, powder-burning steel, this super-tuned rifle platform stretches the maximum lethal distance from our breakthrough 308 Marlin Express chambering. For weather resistance, all major components are crafted of stainless steel, and the stock and fore-end are a distinctive two-tone laminate. Its extremely rugged stock has a full pistol grip and pre-installed sling swivel studs. Other features include side ejection, a solid-top receiver that's tapped for scope mounts and fully adjustable sights. Five-shot tubular magazine.

MODEL 308MX

The traditional look of blued steel and walnut woodwork, with the outstanding long-range ballistics of the 308 Marlin Express offering. Equipped with a 22" barrel and fully adjustable sights. Receiver is drilled and tapped. Five-shot tubular magazine.

Spire-Point Flexible-Tip Bullets:

Providing a higher ballistic coefficient and dramatic velocity increases over traditional round-nose bullets, they ride safely in tubular magazines thanks to flexible polymer tips.

BOLT ACTION : X7™ SERIES

IDEAL FOR:

The industry's best features
AND ITS FINEST VALUE.

CUSTOM-GRADE ACCURACY AND A FULL FREEZER COME STANDARD. All of today's best bolt-action technologies come together in the tightest group of hunting rifles ever offered in their class. In case you're thinking accuracy isn't everything, it has all those other things, too. Like Marlin's 140-year heritage reliability and superior craftsmanship. With cutting-edge features such as our Pro-Fire® Adjustable Trigger, a button-rifled barrel with target-style crown, a pillar-bedded stock, Soft-Tech® recoil pad and more, the X7 Series makes a big statement wherever game animals and competing rifles call home. Capacity for all models is 4+1.

MODEL X7™ & X7Y

Super-tough black synthetic, long-action Model X7 chamberings include 25-06 Remington, 270 Win. and 30-06 Springfield. The short-action Model X7 is available in 223 Remington, 7mm-08 Remington and 308 Win. To serve youth and shooters of small stature, there's the compact Model X7Y, chambered for 243 Win., 7mm-08 Remington and 308 Win. For the complete package, the Model X7 is available with a 3-9x40mm scope mounted and bore-sighted, available in both standard youth (243 Win., 7mm-08 Remington and 308 Win.) and adult (243 Win., 270 Win. and 30-06 Sprg.) chamberings.

See page 27 for complete model listing & specifications.

ANATOMY OF A BEST-IN-CLASS BOLT ACTION

SOFT-TECH® RECOIL PAD

Our proprietary design, the Soft-Tech pad dramatically lessens felt recoil for enhanced shooting comfort. It'll improve your shooting from the bench and in the field.

PRO-FIRE® TRIGGER SYSTEM

This innovative, user-adjustable trigger system was developed in house to provide the ultimate in crispness and safety. It has virtually zero creep and can be set to break as low as 2½ lbs. The external Pro-Fire release mechanism prevents movement of the trigger until it is fully depressed.

BUTTON-RIFLED BARREL

The button rifling process creates the smoothest finish of any barrel manufacturing technique. This refined, ultra-consistent launch surface for your bullets means improved accuracy. Button-rifled barrels are also exceptionally strong. All feature a target crown to enhance shot-to-shot precision, and six-groove rifling.

PILLAR BEDDING

A common aftermarket upgrade, this custom touch is added to provide the accuracy of a hand-built rifle. Steel pillars are fitted in the stock to reinforce the mounting area and provide a more solid, consistent fit.

FULLY ENCLOSED BOLT SHROUD WITH COCKING INDICATOR

Protects the shooter in the case of a pierced primer or case failure. An easy-to-see cocking indicator is readily visible under the bolt shroud whenever the rifle is cocked.

FLUTED BOLT

Marlin's fluted bolt design decreases surface area and resulting drag, making the X7's bolt one of the smoothest actions available.

MODEL X7VH

A varmint configuration of our famous X7, this model is equipped with a 26" heavy barrel, and chambered in 223 Remington, 22-250 Remington and 308 Win.

XT™ SERIES: A SERIOUSLY TIGHT GROUP OF FEATURES

LOADED WITH THE LATEST AND BEST TECHNOLOGIES MARLIN HAS TO OFFER. The most complete family of rimfire rifles ever, our Marlin XT™ series take the lead for accuracy, reliability and safety. For a smooth trigger pull, the XT™ series features the Pro-Fire® Adjustable Trigger. Each barrel has Micro-Groove® rifling to ensure pinpoint accuracy on the range or in the field. Our XT™ line also includes our latest innovation, the XT-22 Youth series, two models designed specifically for younger shooters.

ERGONOMIC STOCK

This ergonomic stock is designed for easy handling and improved fit and feel. This stock shoulders quickly and comfortably, helping to create textbook form round after round.

XT PISTOL GRIP

This pistol grip features a slight palm swell for a rich feel and solid grip. By improving the shooter's overall grip on the rifle, we are able to improve handling, shouldering, shooting form and ultimately accuracy.

THUMB AND TRIGGER SAFETY

In addition to the standard thumb safety, the XT™ Series features a trigger safety incorporated into the Pro-Fire® Adjustable Trigger, which prevents the trigger from being pulled until the trigger safety is fully depressed, for an added level of safety and confidence.

XT PRO-FIRE® ADJUSTABLE TRIGGER

Marlin's user-adjustable trigger system allows the shooter to customize the trigger pull weight between 3 and 6 lbs., while providing the ultimate crispness and virtually zero creep. Everyone's finger works a little differently, and the Pro-Fire® Adjustable Trigger accommodates those differences to ensure a crisp, smooth pull every time for better accuracy.

REDUCED BOLT FORCE

Through improved trigger technology, we are able to reduce the overall bolt force release, for easier ejection and faster chambering.

MARLIN'S EXCLUSIVE MICRO-GROOVE® TECHNOLOGY

MICRO-GROOVE® RIFLING HAS BECOME SYNONYMOUS WITH RIMFIRE ACCURACY. Introduced in 1953 by Marlin, the Micro-Groove® barrel continues to be revolutionary in terms of accuracy, creating a rimfire bore with many more lands and grooves than conventional rifling (see images below). This system results in less bullet distortion when fired. Less distortion plus a better gas seal lead to greater accuracy and tighter groups. Micro-Groove® rifling is only available from Marlin.

MODEL XT-22RO

CONVENTIONALLY RIFLED BARREL

MICRO-GROOVE® RIFLED BARREL

60 years
OF TIGHTER GROUPS

XT™ SERIES
XT-22 SERIES

IDEAL FOR:

Marlin's premier bolt-action
RIMFIRE RIFLES

PERFECT FOR TARGET PRACTICE AND SMALL GAME, these bolt-action 22s are reliable, accurate and fun to shoot. They come in several different models, with 4 or 7-shot detachable magazines or 12-shot tube magazines; synthetic, hardwood or laminated stocks; ramp sights, hood sights or fiber-optic sights. All of them have Marlin innovations such as the Pro-Fire® Adjustable Trigger and Micro-Groove® rifling. The XT-22 series comes chambered in 22 Short, 22 Long, 22 Long Rifle or 22 Win. Mag Rifle (WMR).

See page 29 for complete model listing & specifications.

MODEL XT-22TSR

Featuring a tubular magazine, stainless barrel, thumb safety, Pro-Fire® Adjustable trigger, adjustable semi-buckhorn rear folding sight, and high visibility orange front sight this 22 is ready to go. Available with a black synthetic stock with swivel studs and full pistol grip.

MODEL XT-22RO COMBO

Each XT-22RO Combo features a 7-shot magazine, blued barrel, thumb safety, Pro-Fire® Adjustable trigger, and comes with 3-9x32mm scope factory mounted and bore sighted.

MODEL XT-22

With a Monte Carlo walnut-finished hardwood stock, the XT-22 features a 7-shot magazine, blued barrel, thumb safety, Pro-Fire® Adjustable trigger, adjustable rear sight and ramp front sight.

MODEL XT-22MTR

The XT-22MTR models feature a 12-shot tubular magazine, with a blued barrel and black synthetic stock with swivel studs, and full pistol grip. Includes adjustable rear sight and ramp front sight.

MODEL XT-22MVSR

This black synthetic stock masterpiece includes a 4 and 7-shot magazine, stainless barrel, thumb safety, Pro-Fire® Adjustable trigger, rear and front scope bases only.

XT-22 / XT-17 & MODEL 795

IDEAL FOR:

MODEL XT-17V

Accuracy and Dependability
ARE THE NAME OF THE GAME.

A TOOL FOR EVERY TASK ... AND FOR VARMINTS, THE RIGHT TOOL IS THE XT-17V

Chambered in 17 HMR. It sends a polymer-tipped bullet rocketing downrange at 2,500+ feet per second with a laser-flat trajectory. Our XT Pro-Fire® Adjustable Trigger produces an extremely consistent trigger pull with an ultra-clean break. Included are 4 and 7-shot magazines. The rugged walnut-finished hardwood Monte Carlo stock comes with sling swivel studs. The receiver is drilled, tapped and grooved for your choice of convenient scope mounting options. Model XT-17V0 available with a factory-mounted and boresighted 3-9x32mm scope.

MODEL XT-22YR

PROPER FORM LASTS A LIFETIME. A full-size rifle doesn't fit in a youth's hands the same way it fits in an adult's, making it harder to learn the correct grip and shooting form. Marlin's latest innovation is the XT-22 Youth Series. It's the first series of rifles designed exclusively for young shooters. It features a shorter stock, shorter trigger reach, smaller grip and a higher comb; making it easier for a youth to acquire and hold the proper sight picture. These guns also feature a reduced bolt opening force, for smoother loading and to prevent misfeeds. Our Pro-Fire® Adjustable Trigger adjusts the trigger pull, too. Pass on your love of shooting and hunting to the next generation, and give them the right start with this line of rimfire rifles.

MODEL 795SS

Accuracy. Reliability. Lightweight. This rugged, economical 22 autoloader features an 18" barrel, 10-shot nickel-plated magazine, and an automatic "last-shot" bolt hold-open. Its black, fiberglass-reinforced synthetic stock is virtually indestructible, with molded-in checkering and swivel studs. With sleek lines in a corrosion-resistant, stainless steel finish, this all-season favorite is fitted with an adjustable open rear sight and a ramp front sight. Our Model 795 is also available in a blued steel finish.

MODEL 795 COMBO

Synthetic, scoped combo. 10-shot nickel magazine. 4x20 scope mounted and bore sighted.

MODEL 70PSS

This stainless steel, semi-auto tack driver packs down compactly in its case, making it the perfect companion for any activity where space is at a premium. You can take it apart and put it back together in a matter of seconds. It features stainless steel construction, a rugged fiberglass-filled black synthetic stock and a 7-shot magazine.

PADDED CASE
with built-in flotation comes with every 70PSS for easy carrying and storage.

MARLIN IS PROUD TO SUPPORT Project Appleseed and The Revolutionary War Veterans Association in their mission of teaching every American our shared heritage and history, as well as traditional rifle marksmanship skills using our Model 795. Visit www.appleseedinfo.org to learn more.

MODEL 60 RIMFIRE

IDEAL FOR:

SQUIBBELS. RABBITS. TARGETS. FUN.

THE MOST POPULAR 22 IN THE WORLD. A 22 caliber rifle is often the first rifle for a young shooter entering the world of sport-hunting and shooting. Or just a good old-fashioned "plinker". Whatever you use a 22 for, Marlin makes the one you want to shoot. With features such as its sleek walnut-finished laminated stock and a precision-crowned muzzle for enhanced accuracy, it's easy to see why we've sold over 11 million since 1960. It has a 19" Micro-Groove® rifled barrel, cross-bolt safety, and the manual bolt features a patented automatic "last-shot" bolt hold-open. The tubular magazine holds up to 14 Long Rifle rounds.

MODEL 60SB

The added durability of stainless steel paired with a traditional walnut-finished laminated stock.

MODEL 60SN

The classic Model 60 with a rugged, black synthetic stock featuring molded-in checkering and swivel studs. A 4x20mm scope included with Model 60SN w/Scope (70651).

MODEL 60

One of the most popular 22s in the world. Available in Monte Carlo walnut-finished laminated stock.

MODEL 60DLX

The most popular rimfire in firearms history, the Model 60 Deluxe with Monte Carlo walnut-finished hardwood stock, is an upgraded rifle that you'll want to keep in the family.

MODEL 60C

The world's most popular 22 rifle is also available with synthetic Monte Carlo stock covered with a Realtree® Hardwoods™ pattern.

MODEL 60SS

Our famous Model 60 with the versatility of a stainless steel finish and a two-tone laminated stock.

XT™ SYNTHETIC STOCKS

THE ERGONOMIC XT™ SYNTHETIC STOCK is designed for easy handling and improved fit and feel. You will find this stock shoulders quickly and comfortably, helping to create textbook form round after round. Stock grip features a slight palm swell for a rich feel and solid grip. By improving the shooter's overall grip on the rifle, we were able to improve handling for ultimate accuracy.

71952

71953

XT™ SYNTHETIC YOUTH STOCK

- Research and measurements conducted over a 4 year period.
