# THE SAVAGE RIFLEMAN'S CREED

***This is my rifle.***

***There are others like it,***

***But this one is mine.***

***My rifle is my best friend.***

***I must master it as I must master my life.***

***My rifle, without me, is useless.***

***Without my rifle, I am useless.***

***I must fire my rifle true.***

***With one shot, I must make one quick kill...***

***One clean kill...***

***One humane kill.***

***ONE SHOT. ONE KILL.***

***My rifle and I know that it***

***is only the hit that counts,***

***Not the report of our shot,***

***or the smoke.***

***Only the hit.***

***We will hit.***

***ONE SHOT. ONE KILL.***

To view the original Rifleman's Creed, which inspired ours visit:

[WWW.USMCPRESS.COM/HERITAGE/MARINE\\_CORPS\\_RIFLEMAN'S\\_CREED.HTM](http://WWW.USMCPRESS.COM/HERITAGE/MARINE_CORPS_RIFLEMAN'S_CREED.HTM)

During WWII, the United States Marine Corps adopted what is known as the Rifleman's Creed. It is based on the premise that all Marines are, first and foremost, riflemen. To this day, new recruits are required to learn and recite this creed during training.

There is something compelling about the Rifleman's Creed that speaks to us here at Savage. Maybe we've emphasized the importance of accuracy for so long that we just have to admire those who are dedicated to mastering the art of the rifle – the true riflemen.

While it obviously applies to riflemen and rifles in warfare, we believe many of the principles of the Rifleman's Creed apply to hunting and shooting enthusiasts as well. Certainly the ethical hunter understands that they must be a rifleman first and a hunter second. As we thought about it, we decided we probably needed our own creed.

So, with a tip of our hat to the US Marines and a nod to our many customers who are dedicated to the craft, we have created the Savage Rifleman's Creed. It's a little different from the original, but very appropriately, it starts with the same words: "This is my rifle. There are others like it, but this one is mine."

That's because the relationship/connection between the shooter and his or her rifle is the big difference between being a rifleman and a more casual rifle owner.

But don't forget, you are not the only person who feels that connection to your favorite Savage. There are a lot of proud employees here at Savage Arms who have put a lot of effort, expertise and passion into your rifle. I'm sure many of them feel like it is still, in some way, "their rifle."

No matter when it was made and how it is used, Savage rifles are special; as are Savage Riflemen. We appreciate and encourage that connection.

**Ronald Coburn**  
Chairman and CEO

## THE SCIENCE AND ART OF ACCURACY

There is a science to building an accurate barrel. The bulk of that science leans on machinery and experienced operators. The straightness of the bore, the uniformity of the rifling geometry, the concentricity of the chamber and the exactness of the crown all rely on consistent, dependable and specialized machinery. Equally important are experienced, trusted and specialized operators. Savage proudly employs both.

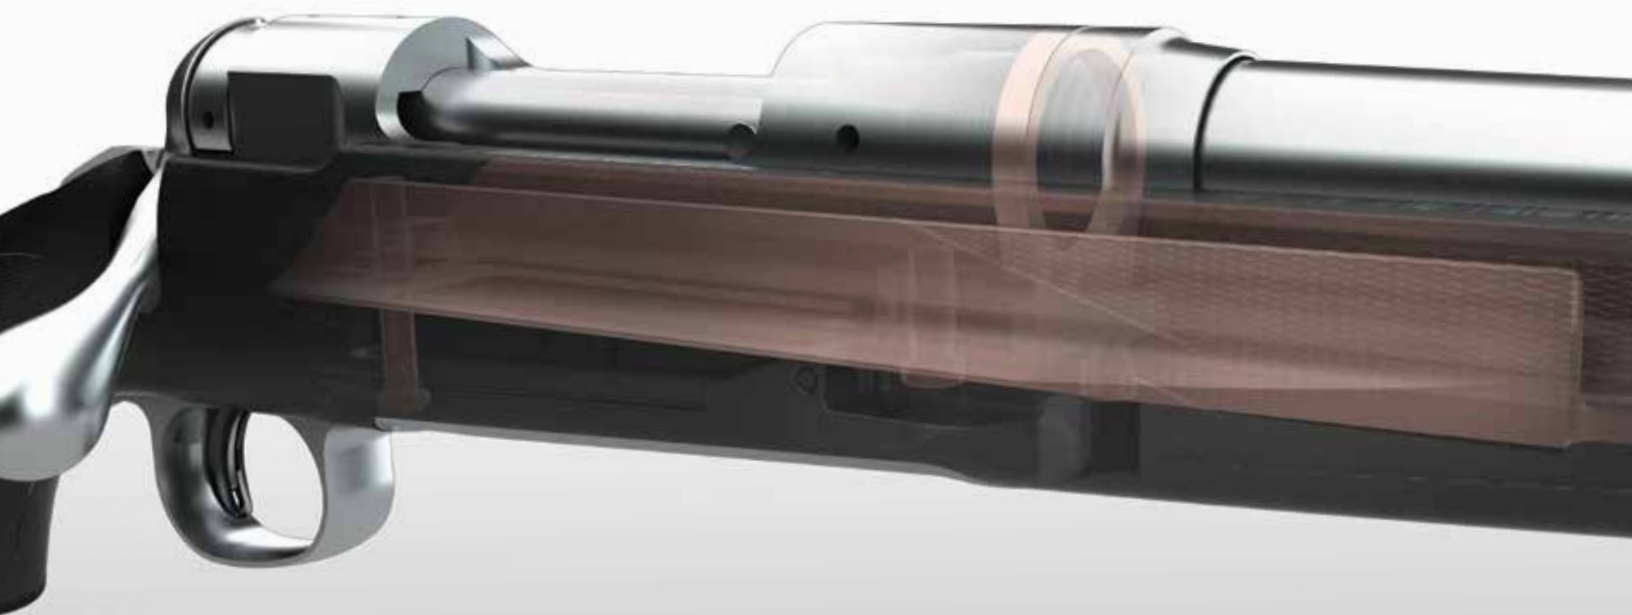

For this reason, each and every Savage centerfire barrel – from the one going on a Team Savage

competitor's F Class rifle to the one going on your kid's first deer rifle – is checked and, if needed, hand straightened by the same person and with the same commitment to perfection.

That's consistency. And what is accuracy if not consistency?

Every barrel is fully threaded into its action then locked in place with a barrel locknut. The resulting dead-nuts tolerance delivers dead-nuts accuracy.

**ACCUTRIGGER™**

Capable of being adjusted by the owner. Trigger pull weight varies by model from 6 oz. to 6 lbs. Crisp release with no creep.

For more information, see video at [savagearms.com](http://savagearms.com)

**ACCUSTOCK™**

The energy released when a cartridge is fired creates a series of harmonic waves that travel the length of the barrel. While it may sound counterintuitive, the movement that accompanies these waves factors into the accuracy equation and must necessarily be embraced. For these reasons, any rifle with respectable accuracy will have a "free-floating" barrel and a firmly bedded action. "Free-floating" is an absolute. Either the barrel is untouched by the stock or it's not. However, a bedded action can come in many shapes and forms.

Traditionally, an action is secured to the stock by one or two screws that pull the action directly downward into the stock. This bedding method provides excellent rigidity on a single, linear plane – up and down.

The AccuStock™ from Savage consists of a rigid rail system that is firmly embedded in the stock throughout the length of the fore-end of the rifle. Rather than unidirectionally engaging the action at one or two points, the AccuStock™ engages the action three dimensionally along its entire length.

TOP VIEW

**ACCUSTOCK™**

For more information, see the video at [savagearms.com](http://savagearms.com)

**ACCUTRIGGER™**

All of the accuracy advantages built into a Savage barrel, action and stock are delivered into the shot by the shooter himself. The engagement point? The Savage AccuTrigger™. Most triggers found in firearms produced today have a very heavy pull. The reason is quite simple: liability. Because manufacturers cannot afford to build firearms with triggers that could accidentally discharge, they've resorted to heavy trigger pulls. Even though factory triggers can usually be adjusted to some extent, such adjustments can create unsafe conditions and usually void the warranty. Savage challenged its engineering team to design a completely new trigger system that gives shooters what they want – an easily adjustable trigger with a crisp release and no creep. This project took several years, but our revolutionary AccuTrigger™ meets all of these objectives.

The Savage AccuTrigger™ gives the flexibility to set the trigger pull to individual preferences without having to pay a gunsmith to adjust it. Even when

adjusted to its lowest setting, the AccuTrigger™ is completely safe. When maintained and adjusted as intended, the AccuTrigger™ cannot accidentally discharge during normal use, even if it is jarred or dropped. Furthermore, the crisp, clean, light trigger pull allows the shooter to maximize the rifle's accuracy potential. A teardrop three-position safety is an additional feature on centerfire rifles with the AccuTrigger™. This provides better acquisition of the safety button and operates more smoothly and quietly.

The AccuTrigger™ is designed with an integrated AccuRelease™ that must be completely depressed or the rifle cannot fire. While the trigger is being pulled, the AccuRelease™ is intentionally depressed, which unblocks the sear and allows the rifle to discharge. Adjusting the AccuTrigger™ is easy. Simply remove the stock and rotate the return spring using the tool supplied with the rifle. The AccuTrigger™ has a single adjustment location and is designed so it cannot be adjusted below the minimum setting.

The AccuTrigger™ has a single adjustment location

GARY ROBERSON NEEDS TO START WEARING A HAT THAT SAYS "ACME" FOR ALL THE BAD THINGS HE DOES TO COYOTES WITH A SAVAGE RIFLE. BUT YOU WON'T FIND GARY'S SHOW "CARNIVORE" ON THE CARTOON CHANNEL. HE'S ON THE PURSUIT NETWORK.

# CENTERFIRE PACKAGE SERIES

Ready to go, right out of the box, the Savage Package Series offers a rare combination of quality, convenience and affordability. We've built our Package models in a way that takes all the guesswork out of buying a rifle, scope, bases and rings. No matter what you're looking for, we've got a package to meet your needs.

Choose the bread-and-butter Hunter XP model and you get a Bushnell 3-9x40 scope. Step up to the Trophy Hunter XP and upgrades include our adjustable AccuTrigger and a Nikon 3-9x40 scope with BDC reticle. This great reticle can be ballistically matched to your exact cartridge using Nikon's "Spot On" software. If you are a predator specialist, there are even a couple of packages just for you.

IF YOU TRY TO BE GOOD AT EVERYTHING, YOU WON'T BE GREAT AT ANYTHING. WHEN IT COMES TO RIFLES, THERE WILL PROBABLY ALWAYS BE A JACK-OF-ALL-TRADES RANCH RIFLE THAT SPANS THE BACK WINDOW OF A PICK-UP TRUCK. BUT EVEN THE TRADITIONAL WORLD OF FIREARMS HAS RECOGNIZED THE PRECISION THAT COMES WITH SPECIALIZATION AND NO FIREARMS COMPANY HAS ACHIEVED IT AS EFFECTIVELY WITH BOLT ACTION RIFLES AS SAVAGE.

## SPECIALTY SERIES

The Long Range Hunter is the ultimate for hunting wide open spaces where tough shots are commonplace. It features a 26" barrel, matte finish, AccuStock™, adjustable muzzlebrake, Karsten adjustable comb, hinged floorplate and is chambered in several long-range calibers, including 6.5 Creedmoor and 338 Lapua Magnum.

The Lightweight Hunter is the ideal tool for the backcountry hunter who's not afraid to do a little hiking to get to the big one. The short action weighs in at 5.5 lbs. and the long action is 6 lbs. It features a 20" light-profile barrel, heavily-machined steel action and spiral fluted bolt.

A collaboration with Savage Pro-Staffer Dick Scorzafava, the Stainless Model 16/116 Bear Hunter features a 23" medium-contour fluted barrel with our patented on/off muzzle brake. Its polymer AccuStock™ is in Mossy Oak Infinity and the hinged floorplate features an attractive bear paw logo. It is chambered in several popular bear-hunting calibers, including Dick's favorite, 325 WSM.

# BIG-GAME SERIES

These rifles feature button rifling and a free-floating sporter barrel. All rifles in this section feature the revolutionary AccuTrigger™ and deliver unsurpassed accuracy in sporting rifles.

Our feeding system comes in both hinged floorplate and detachable box magazine, offering a straight-line feed for more reliability. The Weather Warrior comes with synthetic stock and stainless barreled action. So no matter what Mother Nature brings, the Savage Weather Warrior has you covered.

Hinged floorplate and detachable box models with synthetic stocks feature our revolutionary AccuStock™, with a three-dimensional bedding system that literally squeezes the action in all dimensions.

If a synthetic stock is not your thing, the great looks of our Classic Series rifles add a touch of class to any rifle collection.

Some Savage customers order non-cataloged items to their own specifications. In certain cases, these specifications may exclude the AccuTrigger™ and/or the AccuStock™.

# LAW ENFORCEMENT SERIES

The appearance of the Model 10/110 BA from Savage is as radical as the extreme accuracy it delivers. The BA's modular design enables the operator to customize it to mission-specific demands by selecting from a virtually infinite array of aftermarket accessories including buttstocks, magazines, grips, bipods and more. Built for pinpoint accuracy, the BA is the flagship of the Savage Law Enforcement Series.

The long-action version is chambered in 300 Win. Mag and the ultra-long-distance 338 Lapua. It features a Magpul PRS-G3 buttstock and an enhanced Savage muzzle brake and has the ability to reach out like no Savage we've ever made.

Rifles in this series have many different features for many different purposes. but every one of them is built on the legendary "Model 110" action, the most accurate factory action ever.

ANYONE WHO SHOOTS A RIFLE EXPECTS ACCURACY. BUT THERE IS A SPECIAL BREED OF ACCURACY ENTHUSIAST THAT FOREVER CHASES THE ONE-HOLE GROUP. ONCE THEY ATTAIN IT, THEY BEGIN TO CHASE THAT GROUP AT LONGER AND LONGER RANGES. PERHAPS THE MOST ELITE COLLECTION OF THESE ACCURACY PURISTS IS TEAM SAVAGE.

# TARGET SERIES

Savage Target Series rifles are the farthest place in our line from “beginner” rifles. With dozens of decisive world-class titles, these are elite rifles for elite shooters. The rifles in this section are for the accuracy-obsessed who want to test their skills on the ultimate playing field: the 1,000-yard range. The 12 Benchrest is for 1000-yard benchrest competitions. It has a 29” ultra-heavy barrel, dual-port action and Target AccuTrigger. Its laminated stock features a wide forend and a buttstock that is sculpted for a bench rest. Chambered in .308 Win, 6.5 x 284 Norma, and 6mm Norma BR.

The Palma® is for the hardcore few who prefer to shoot their 1000-yard competitions with iron sights (not included). It is also tapped for regular folks who prefer to mount a scope. It features a multi-adjustable, laminated stock, Target AccuTrigger and 30-inch tapered heavy barrel. Chambered in .308 Palma only (Palma 95 chamber).

Our 12 F/TR has a slightly rounded forend with bipod rail, adjustable cheekpiece, and is chambered in .308 Win. or 223 Remington.

The F Class has a three-inch wide ventilated forend with flat bottom, flat buttstock, and is chambered in 6.5 x 284 Norma, as well as 6mm Norma BR – the first factory rifle to offer these calibers.

12 PALMA®

PALMA IS A REGISTERED TRADEMARK USED WITH PERMISSION FROM THE NATIONAL RIFLE ASSOCIATION.

**DUAL PORT ACTION**  
The Model 12 Benchrest has a specialized dual-port action for fast easy left-load, right-eject functioning.

# PRECISION ACTIONS

Our line of Precision Actions makes it possible for gunsmiths to use the same action found in our Precision Target Rifles, for customized firearms. The actions are available in both standard and .223 bolt heads, and are offered in three configurations: Right Bolt/Right Port, Right Bolt/Left Port and Dual Port options. The stainless Precision Target Actions also come with the Target AccuTrigger, adjustable from 6 oz. to 2.5 lbs. Actions include bolt assembly, AccuTrigger™ assembly, barrel locknut, recoil lug, and trigger guard.

**TARGET ACTION (STAINLESS STEEL)**  
223 Bolt Head – Right Bolt, Left Port  
Standard Bolt Head – Right Bolt, Left Port  
223 Bolt Head, Left Load, Right Eject  
Standard Bolt Head, Left Load, Right Eject, Dual Port  
MSRP \$635-670

**TARGET ACTION (STAINLESS STEEL)**  
223 Bolt Head – Right Bolt, Right Port  
Standard Bolt Head – Right Bolt, Right Port  
MSRP \$635

SAVAGE RIFLES ARE ASSEMBLED BY HIGHLY-SKILLED CRAFTSMEN WHO PASS THROUGH A RIGOROUS TRAINING PROCESS. TRAINING TYPICALLY LASTS SIX TO EIGHT MONTHS BEFORE THE BUILDER BECOMES COMPLETELY PROFICIENT.

# VARMINT SERIES

Prairie Dogs beware. The Varmint series raises the bar on varmint-grade accuracy. Our revolutionary AccuTrigger™ lets you adjust trigger pull weight all the way down to 6 oz. with certain models. A superb factory-produced rifle, the Varmint Series features button-rifled, free-floating barrels and a variety of stock configurations. Select different rates of twist to help stabilize heavier bullets during long range shooting – a Savage exclusive.

The top-of-the-line Model 12 Long Range Precision Varminter provides legendary Savage accuracy and sets the standard in long-range shooting. An extra-heavy, fluted, one-inch diameter barrel with a smaller ejection port provides more rigidity to the receiver and greater precision. All this, plus an aluminum v-block system in H-S Precision's Varmint stock. It's easy to see why the Model 12 was named a Field & Stream "Best of the Best" and earned NRA's Shooting Illustrated "Golden Bullseye Award."

**12 LRPV**

SAVAGE ARMS

# AXIS

THERE ISN'T AN ABUNDANCE OF GLAMOUR IN MANUFACTURING PROCESSES. YOU DON'T SIT AROUND THE CAMPFIRE OR THE SHOOTING RANGE BRAGGING UP YOUR RIFLE'S PERFORMANCE, BACKING UP YOUR CLAIM BY CITING STREAM-LINED ASSEMBLY PROTOCOLS OR AN INNOVATIVE INJECTION MOLDING PROCESS THAT PROVIDES MORE UNIFORM COOLING AND GREATER CONSISTENCY. YOU LET YOUR RIFLE DO THE TALKING. BUT IN CASE YOU'RE WONDERING HOW WE CAN MAKE THE AXIS IN THE USA AND STILL SAVE YOU MONEY WITHOUT SACRIFICING PERFORMANCE, HERE'S THE SECRET: WE DIDN'T DESIGN A CHEAPER RIFLE, WE DESIGNED A BETTER WAY TO MAKE A SAVAGE.

# SAVAGE RIMFIRES

## MORE OPTIONS THAN EVER.

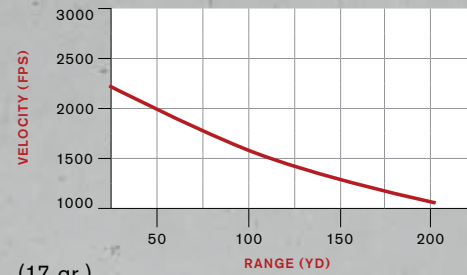

The most fired guns in many gun collections are often rimfires. That's why we take them as seriously as any other rifle we make. We know our reputation for accuracy rides on every shot. From the tried-and-true .22 LR to completely new offerings like the 17 Win Super Mag, Savage rimfire offerings cover everything from weekend plinking to long-range tack-drivers to affordable varmint hunting.

Whether you're looking for your kid's first rifle or the latest in hyper-velocity and high downrange energy delivery for your own pursuits, the Savage line of rimfire rifles has what you're looking for.

# 22 LONG RIFLE SINGLE-SHOT RIMFIRE SERIES

The best way to learn to shoot well is one shot at a time. Single shot 22s are perfect for new shooters all the way up to those who want to perfect the art. That's why our selection of single-shots are not toys. They have serious big-gun features like an adjustable AccuTrigger™, button-rifled barrels and adjustable peep sights in some models. Sure, you've only got one shot, but with a Savage, you can make it count.

# 22 LONG RIFLE REPEATERS RIMFIRE SERIES

Savage has been making rimfire rifles for more than 100 years, and we continue to build on this tradition of excellence. Never before have so many options existed for you to customize your gun to suit your preference with stocks, barrels, and magazine types. Select models offer a heavy barrel, and most models are available with AccuTrigger™. A youth model is also available for the young shooter.

SR= SUPPRESSOR READY. BARREL THREADED 5/8 - 24 ON 308, 1/2 - 28 ON 223 AND RIMFIRE.

Some Savage customers order non-cataloged items to their own specifications. In certain cases, these specifications may exclude the AccuTrigger™.

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE

THE MOST FIRED GUNS IN MANY GUN COLLECTIONS ARE OFTEN RIMFIRES. THAT'S WHY WE TAKE THEM AS SERIOUSLY AS ANY OTHER RIFLE WE MAKE. WE KNOW OUR REPUTATION FOR ACCURACY RIDES ON EVERY SHOT.

# MAGNUM RIMFIRE SERIES

To us there is no such thing as "just a rimfire." These are serious rifles. If you have any doubt of that, just look at the magnum caliber options available today. Whether you prefer the proven performance of 17 HMR or 22 WMR, or you're itching to be the first kid on the block with the new 17 Winchester Super Magnum, there is no reason to look any further than Savage. That's because we have the broadest selection of magnum rimfires anywhere: laminate stocks, synthetic, stainless, blued, heavy barrel or sporter. We've got it.

Some Savage customers order non-cataloged items to their own specifications. In certain cases, these specifications may exclude the AccuTrigger™.

INTRODUCING THE **NEW SAVAGE**

# B.MAG

With Winchester Ammunition's creation of an entirely new class of rimfire ammo built from the ground up, Savage accepted the challenge of designing an entirely new rimfire rifle the same way. Just as the new 17 Win Super Mag isn't merely an existing cartridge that has been tweaked, the new B.MAG from Savage isn't simply a re-chambered version of an existing platform.

The high velocities of the new 17 Win Super Mag led us to design features into this rimfire that are typically reserved for our centerfire rifles. In order to maximize accuracy in this long-range shooter, we have utilized our unique thread-in barrel headspacing system, rear-locking lugs and a cock-on-close bolt. Of course, we would never dream of engineering an accuracy machine like the B.MAG without capping it off with our legendary, light, crisp AccuTrigger™.

**B.MAG**  
MSRP \$349

## B.MAG FEATURES:

### B.MAG ROTARY MAGAZINE

- Completely New Compact Rimfire Action with Rear Locking Lugs and Cock-On-Close Bolt.
- Same Thread-In Barrel Headspacing System as our Centerfire Rifles.
- Center-Feed Rotary Magazine.
- Light, Crisp AccuTrigger is User-Adjustable without Special Tools.
- Soft Rubber Butt Pad.
- Hidden Action-Screws.

**WINCHESTER** 

# 17 WINCHESTER SUPER MAGNUM

### FASTEST RIMFIRE IN THE WORLD

New for 2013, the 17 Winchester Super Magnum doesn't borrow from an existing cartridge design. It was designed from the ground up, to reach velocities never before achieved in a rimfire cartridge. The 17 Win Super Mag delivers velocities of 3000 fps with a 20 grain bullet, or 2600 fps with a 25 grain bullet. This substantial increase in velocity over other rimfire cartridges yields flat trajectories, and downrange energy sure to be a hit with shooters of all types. No matter how you measure performance: velocity, energy, trajectory, or wind drift, it offers centerfire performance at a rimfire price.

# STEVENS

Our Stevens brand of firearms is, without a doubt, The Definition of Value. Stevens shotguns are imported from overseas partners who work closely with Savage to provide great value at affordable prices. Current offerings include over/unders and pump models in both field and security configurations.

All centerfire rifle barrels in this line are button rifled with painstaking precision by gunmakers trained in the Stevens tradition. The Model 200 is available in both long and short actions, in a variety of calibers, and features a dual pillar bedded synthetic stock. All barrels are free floating for enhanced accuracy.

Our rimfire selection offers many options, from the 22 LR to the popular tack-driving 17 HMR. From centerfire to rimfire, every model delivers reliability, accuracy and unsurpassed value. Stevens is the "must buy" model for hunters and riflemen who know great value when they see it.

**512 GOLD WING**  
Over/Under, 12, 20, 28, 410  
MSRP \$690

**512 GOLD WING YOUTH**  
Over/Under, 20 Gauge  
MSRP \$690

The Stevens 512 over and under is a shotgun you'll be proud to carry at a price that reminds you why Stevens is The Definition of Value. These well-built, reliable shotguns give you many features usually found only on more expensive models.

It is built by Turkish craftsmen to Savage's precise specifications, and features: chrome-lined barrels, mid-rib bead and front bead, gold-plated single selective mechanical trigger and mono-block construction. The single selector switch is integrated into the tang-mounted safety and located right where you want it. The 12, 20, and 28 gauges all come with five screw-in choke tubes. The 410 bore has Modified and Improved Cylinder barrels and all frames are scaled precisely to the gauge for superior balance.

The 512 youth gun has a shorter stock, 24" barrel and is chambered in 20 gauge only.

All frames are perfectly scaled to gauge for superior handling qualities and weight distribution.

# SAVAGEKNIVES

Designed by Savage, the Hunter's Edge Fixed Blade is a multiple-purpose knife that offers a drop-point blade, a gut-hook, and a saw – all in a single-blade knife. It's the perfect complement to our original Hunter's Edge, a quick-change, multi-blade knife with 4 interchangeable blades.

The Compact Fixed Blade knife comes with a sheath that attaches directly to your gun sling. You'll always know where your knife is when you need it. Visit our online store to see these and other great products by Savage. [WWW.SAVAGEARMS.COM](http://WWW.SAVAGEARMS.COM)
